China Council for the Promotion of International Trade
Electronics & Information Industry Sub-council

About Us

Center for International Economic and Technological Cooperation (CIETC)/ China Council for the Promotion of International Trade Electronics & Information Industry Sub-council (CCPIT-ECC) is a public institution of Director-General level directly subordinate to the Ministry of Industry and Information Technology of China. We are listed on the first batch of think-tank in industry and ICT sector.

As a provider of international cooperation and industrial trade promotion services in the industry and ICT sectors, CIETC is dedicated to advance the internationalization of China's industry and ICT sectors and boost the global competitiveness of Chinese enterprises. Through three distinctive platforms, namely international cooperation, policy research and exhibition & events, we deliver services, support and solutions for government agencies and businesses in China and facilitate the development of "Manufacturing Power" and "Internet Power".

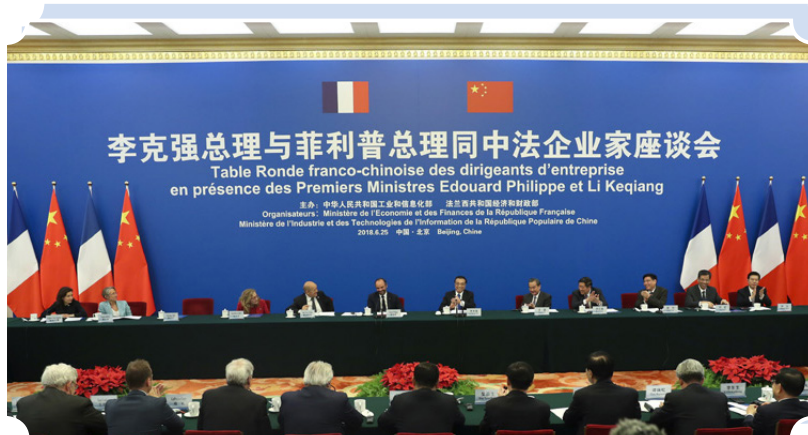

Main Functions

- To carry out research on international economic and technological development and industrial cooperation, provide information on international economic and technological communication and cooperation, and offer policy-based advice to government institutions;
- To conduct exchange and cooperation with international organizations, foreign institutions and public organizations, and support MIIT's strategies of "Going Global" and "Bringing-In";
- To carry out research on bilateral and multilateral economic and trade rules and foreign laws, provide advisory services for economic and trade frictions, as well as intellectual property right disputes in industry and ICT sectors;
- To organize specialized training sessions on international trade rules, foreign laws as well as international disputes settlement in industry and ICT areas;
- To organize international exhibitions, conferences and fora in the industry and ICT sectors at home and abroad;
- To undertake other tasks assigned by MIIT.

CIETC has established cooperation mechanisms with international organizations, foreign institutions and public organizations. Moreover, it provides support for international exchange and communication, implement the “Going Global” and “Bringing-In” strategies in industry and ICT sectors.

We work to flesh out the bilateral and multilateral international cooperation mechanisms of Department of International Cooperation, Ministry of Industry and Information Technology. We endeavors to create “China-France Industrial Cooperation Platform” for inclusive development and win-win cooperation through industrial partnership initiative, joint building of industrial park and research.

▶ In June 2018, we support the Ministry of Industry and Information Technology to organize the China-France Entrepreneurs Roundtable. Chinese Premier Li Keqiang attended this event.

▶ In April, 2018, we held China-France Industrial Cooperation Roundtable in Paris and signed “China-France Industrial Cooperation Partnership Framework Agreement” with Alliance of Industry of Future.

▶ With the presence of Chinese primer and French prime minister, we signed Memorandum of Understanding with Schneider Electric (China) to further cooperation in sectors on green manufacturing, smart manufacturing and on industrial development at large.

We accomplished the tasks of “New Industrial Revolution” within the umbrella of “Breaking a New Path for Growth” for deliverables of G20 Hangzhou Summit, in which we undertook, among other tasks, event organization, liaison and content discussion with stakeholders.

In May 2016, Xin Guobin, Vice Minister of MIIT delivers a keynote speech on New Industrial Revolution at the joint session of G20 “Breaking a New Path for Growth” conference in Beijing.

◆ CIETC was the member of the drafting team for G20 New Industrial Revolution Action Plan

BRICS Cooperation

- ◆ We, secretariat of the BRICS Industry Ministers Meeting, have assumed research, liaison, outcome drafting and event organization for previous BRICS Industry Ministers Meetings. In 2017, we successfully organized the 2nd BRICS Industry Ministers Meeting and the 3rd BRICS Communication Ministers Meeting in Hangzhou, China. In 2018, under the directions of the Ministry of Industry and Information Technology, we drafted the “BRICS New Industrial Revolution Partnership” initiative, which was integrated into the 10th BRICS Summit Johannesburg Declaration as one of the key outcomes of BRICS Leaders’ Meeting.

China-Russia Industrial Cooperation

- ◆ We held the First China-Russia Industrial Innovation Competition within the framework of Industrial Cooperation Sub-committee. 28 cases from two countries were selected to participate in the finals competition in Xi'an, China. Contestants were awarded by Chinese and Russian ministers and governor of Yunnan province during the Third Meeting of Industrial Cooperation Sub-committee.

- ◆ We deeply engaged in the work of Industrial Cooperation Sub-committee within the Regular Meeting Between Chinese Premier and Russian Prime Minister. In September, 2018, we organized the Third Meeting of Industrial Cooperation Sub-committee and undertook tasks of three Working Groups (Raw Materials, Equipment Manufacturing and Radio).

China-UK Industrial Cooperation

- ◆ In February 2018, during UK Prime Minister Theresa May's official visit to China, CIETC signed the Memorandum of Understanding with the Confederation of British Industry. Two sides will jointly initiate "UK-China Industrial Cooperation Alliance", to share the latest policies, technologies and experiences in industry through business roundtables and project-matching meetings.

China-CEE Industrial Cooperation

- ◆ CIETC endeavored to further enhance the cooperation and exchanges in Industry and ICT sectors between China and CEE countries, and signed MoUs with Confederation of Industry of the Czech Republic and Hungarian Investment Promotion Agency, laid solid foundation for bilateral industrial cooperation, contributing to the cooperation on economy and trade between China and CEE countries.

UNIDO "South-South Cooperation in the Energy-saving and Environmentally-friendly Industry" Supporting Platform

- ◆ International cooperation projects are important approaches for China to effectively help Chinese industries in the "Going Global" and "Bringing-In". As a project supporting organization, CIETC works closely with UNIDO, effectively implements "South-South Cooperation in the Energy-saving and Environmentally-friendly Industry", encourages Chinese enterprises with advanced energy saving technologies and equipment to go global, drives the green development of enterprises and industries, and provides strong support for China to communicate and collaborate with governments, industrial associations and enterprises.

- ◆ CIETC was deeply engaged in the preparation of the annual World Internet Conference in Wuzhen. One of the highlights was China-Europe Digital Economy Forum which aimed to implement the consensus and outcomes endorsed in G20 Hangzhou Summit, China-Europe Leaders Meetings and High-level Economic and Trade Dialogues. Director General Zheng Hong attended the forum and delivered a keynote speech.

- ◆ CIETC has established a global network with 50+ embassies and consulates in China, 100+ international chambers of commerce and 10+ international organizations. It has also signed MOUs with counterparts from Russia, UK, France, Czech, USA, Germany, Ireland, ROK, Romania, and Thailand and so on.

As one of the first batch Thinktanks in Industry and ICT sectors, acknowledged by MIIT, CIETC proactively conduct research on different countries in Industry and ICT sectors, provide information on international economic and technological communication and cooperation. Hence, CIETC has forged a policy research and government support system with distinctive international features.

As one of the first batch of thinktanks acknowledged by MIIT, CIETC undertakes over 100 research projects entrusted by several Ministries of State Council and local governments, formulates over 10 industrial park development plans, thus delivering Abundant research outcomes. CIETC also engaged in the establishment of Thinktanks in Industry and ICT sectors, and shared our best practices in the Inaugural Meeting.

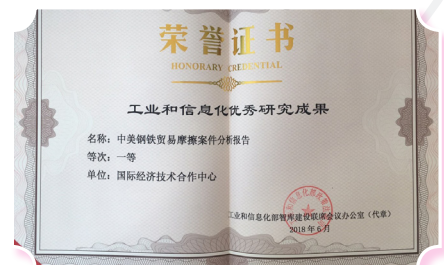

CIETC engages in drafting national strategic plans such as *Outline of National IT Development Strategy*, *ICT Development Planning and Action Plan for Internet-driven Poverty Alleviation*, *Guidance on Enhancing the Green Industrial Development of Yangtze Economic Belt and Blue Book of China Manufacturing 2025*.

CIETC caters to the development of China's open economy, proactively engages in the research on WTO and international trade rules, and provides decision-making support for MIIT and the Ministry of Commerce in international negotiations. CIETC provides policy research and consulting services for going global businesses in terms of trade risk alert, business dispute resolution, issue of ATA documents and commercial certificates and so on. CIETC helps Chinese enterprises raise their awareness in protecting intellectual property rights, safeguards IPRs in exhibitions, protects interests of Chinese enterprises in exhibitions, thus making contribution to the development of industry.

CIETC complies internal journals and newsletters such as *CIETC Express*, *CIETC References*, *GPA International Monitoring*, *WTO and Laws* and provides consulting services to governments, research institutions and enterprises.

CIETC organizes international exhibitions, conferences and fora , and establishes a comprehensive trade service platform for Chinese enterprises. CIETC actively cultivates international exhibitions and conferences with self-owned brands and explore ways of transformation and upgrading in this regard.

CIETC organizes well-known exhibitions and fora both home and abroad

- ◆ In Nov. 2018, Vice Minister of MIIT Wang Jiangping attended the 2nd China Industrial Design Exhibition hosted by CIETC.

- ◆ In May 2017, Mr. Zhang Feng, Chief Engineer of MIIT, attended the "Big Data, Intelligence, Mobile Internet and Cloud Computing" exhibition held by CIETC.

- ◆ As an exclusive partner of Greater China for Russia International Telecommunication Technology Equipment Exhibition, CIETC organized nearly 100 enterprises from Mainland China, Hong Kong, Macao and Taiwan to attend this event, and help Chinese enterprises to explore the Russian market.

- ◆ In Sep. 2018, CIETC organized The Forum on International Cooperation in Manufacturing Industry at the 40th Anniversary of China's Reform and Opening-up during the 20th CIIF.

Explore ways of business integration

- ◆ CIETC took the lead in establishing China Green Supply Chain Alliance, with Vice Minister of MIIT Xin Guobin as the Director for the Committee of Guidance, former Party Member of MIIT Jin Shubo as the Alliance's President, former Deputy Director General of the Policy Research Office of the CPC Central Committee, Vice President of the China Center for International Economic Exchanges Zheng Lixin as the Director for Advisory Committee of Experts. The Alliance has members like Huawei, Tencent, Gree, Schneider, etc.
